YOUR LOCAL

ONE-STOP-SHOP

Refresh Property Solutions is your one-stop-shop for a greener home.

Our range of energy-efficient home upgrades are designed to reduce carbon footprint and help you save money on your energy bills. All while improving the comfort of your home and making it more sustainable for years to come.

OUR SERVICES

HOME INSULATION

Save money on your bills and improve home comfort with loft and cavity wall insulation.

SOLAR PV & BATTERY STORAGE

Increase your home efficiency and sustainability with solar PV and battery storage.

GAS BOILER REPLACEMENT

Replace your inefficient gas boiler in just one day and make energy and cost savings.

ELECTRIC VEHICLE HOME CHARGING

Install your own electric vehicle charger and enjoy the perks of at-home charging.

OIL TO GAS CONVERSION

Convert your home heating system from oil to natural gas in just one day.

HOME RENOVATION

Create your dream home with help from our expert, multiskilled team.

HYBRID HEAT PUMPS

Improve energy efficiency in your home with a hybrid heating system.

APPLIANCE SERVICING

Keep your home safe and warm with routine gas and electrical appliance servicing.

HOME INSULATION

Insulating your home can help reduce your energy bills by up to 20%.

Insulating your home is an easy and effective way to lower your energy bills and enhance energy efficiency, by reducing the amount of heat lost through your roof and walls.

We use quality loft insulation wool and bonded cavity wall bead to help you create a more comfortable, efficient home.

LOFT

Loft insulation involves filling the gaps between roof space joists with wool fibre to prevent heat from escaping through your roof.

CAVITY WALL

Cavity wall insulation involves injecting bonded beads into the gaps between the walls of your home to reduce heat loss.

GAS BOILER REPLACEMENT

Get a quick and easy quotation with our free online survey.

Replace your old inefficient gas boiler from just £1,900* and make the most of increased energy efficiency and cost savings.

*Price based on standard installation.

OIL TO GAS CONVERSION

Our team of experts can convert your home from oil to gas in just one day.

Make the switch to a gas heating system and enjoy all of the benefits; from instant heat and hot water to a future-proof boiler with a constant fuel supply.

HYBRID HEAT PUMPS

The unique, energy efficient and affordable home heating solution.

Hybrid heating systems are an ideal solution for homeowners looking to reduce their carbon emissions and energy bills.

Working off both electricity and gas, hybrid systems offer energy security by automatically choosing the cheapest fuel source available based on your energy tariffs.

We install the Alpha E-Tec Hybrid; a reliable, low maintenance and future-proof system comprising of a 4kW heat pump, 33kW combi gas boiler and wireless controls.

SOLAR PV

Invest in a sustainable future and make the most of smaller energy bills and a lower carbon footprint with a solar PV system.

We offer a range of solar systems to fit your needs, from small rooftop installations to larger commercial projects.

BATTERY STORAGE

Reduce your reliance on the grid and lower your energy costs with our innovative battery storage technology.

Our battery storage systems are designed to store excess energy from your solar panels for later use, instead of sending it back to the grid.

EV HOME CHARGING

Our EV charging range starts from just £950 to supply and fit.

Our electric vehicle charging range caters to all needs, lifestyles and budgets. From affordable, fully functional chargers to high-end, state-of-the-art options, you'll find the perfect EV charger for you and your car.

We offer flexible finance on our full range of EV chargers.
